1985

AUTHOR INDEX

Adamson, John W. 397
Aloisi, Ralph M. 315, 322
Alpaugh, Kathy 323
Alperin, Jack B. 323
Anderson, Shauna C. 76, 319
Andresen, Brian D. 245
Ansman, Therese R. 314
Ash, K. Owen 427
ASMT task force on physician office laboratories, 544
August, Marilyn J. 500
August, Susan K. 101
Bachelor, Melanie McCabe 101
Baker, Shirley Ann 317, 723
Bamberg, Richard 669
Banks, Loni J. 570
Barbieri, Lee A. 643
Barnes, W.G. 521
Barros, Annamarie 311
Beard, Michael A. 123
Beckwith, David G. 323
Bell, Ann 797
Bennett, Donald H. 234
Bishop, Michael L. 210, 221
Bissonette, Catherine 322
Blevins, Kathleen S. 111
Blount-Fronefield, Debra A. 323
Bobek, Joanne R. 75
Bollinger, Pamela 588
Bonner, Lois 465
Brabender, W. 521
Branson, Robert M. 517
Brown, Beverlylee 319
Brynes, Russell K. 259
Buessow, Scot C. 322
Bunker, John F. 312
Butch, Suzanne H. 314
Campbell, Philip 9
Cardinale, Marian 202
Carlson, Kathie Burris 313
Carroll, Dorothy R. 324
Cashell, Jackie M. 743
Chang, Ernest J.H. 655
Ciarcia, Margaret 322
Clark, Dale A. 650
Clausen, Jack L. 19
Cockayne, Susan 76, 427
Cone, Ric 279
Cooper, Lt. Joseph T. 659
Corsaut, Maurine J. 525
Cronenberger, Helen 317, 577, 701
Daitch, Ellen J. 325
Daly, Judy A. 753, 759, 766
Dart, Richard A. 55
David, Robert M. 469
Davis, Barbara G. 213
Davis, Gerald L. 95
DelVillano, Bert C. 295
Detter, James C. 389, 720, 743
Diggs, L.W. 743
Dillman, Robert O. 301
Di Salvo, Frank 311
DiUlio, Maggie 320
Doshi, Mary L. 324
Drewinko, Benjamin 588
Duben-Von Laufen, Janet 210, 221
Ducate, Madeline J. 325
Dudley, Maxine 473
Dziekonski, Chester B. 2
Ebersole, Lonnie L. 599
Edwards-Moulds, JoAnn M. 323
Ehrmeyer, Gerald 312
Ehrmeyer, Sharon 15, 33, 312
Eichelberger, James W. 89
Eichhorn, John H. 23
Essary, Natalie A. 74
Evans, Valerie J. 315
Fannon, Marybeth 617
Fernandez, Zoe C. 324
Fiacco, Violet 495
Florane, R. Kaye 453
Fricke, Barbara 315
Garcia, Lynne S. 311
Gillespie, G. Yancey 322
Gonzalez, Jorge G. 312
Gooch, W. Manford 762
Graham, Eleanore M. 119
Grant, Carol J. 318
Gray, Karen S. 798
Gray, Robert L. 55
Greeley, Mary Louise 316
Green, Myrtle M. 318
Gregg, Dorothy E. 595
Gregory, Kay R. 318
Grever, Marilynn A. 599
Gundy, G. Craig 123
Haessig, Lorene K. 27
Hagan, Phillip 301
Halinski, Ronald S. 404
Hallgren, Helen M. 685
Halpern, Samuel E. 301
Hansen, Lynn M. 313
Hardegree, Jr., Lester 319
Hartzell, Rita K. 323
Haymond, Russell E. 445
Haynes, Tammy 617
Heinsohn, Barbara F. 119
Hemstreet, George P. 709
Hermelin, Lori I. 89
Heuer, Cynthia 318
Hilger, Anthony E. 317
Hill, Sonja 318
Hindler, Janet A. 134
Hippel, Teresa G. 321
Hobson, Anne S. 320
Hodges, G.R. 521
Hoffman, Stephanie H. 319
Hogan, Linda S. 317
Inderlied, Clark B. 167
Jackson, James A. 256
James, Karen 314
Johnson, Patricia M. 559
Johnston, Dennis 588
Johnston, Virginia F. 779
Jones, Judith A. 720
Juchau, S. Vern 60
Kasa, R. Marilyn 404, 525
Kazen, Consuelo M. 570
Keil, Paula R. 564
Kelley, Susan G. 134
Kennedy, John B. 669
Koch, David D. 41
Koch, Marlene J. 27
Koepke, John A. 227
Krause, John R. 603, 748
Kullerd-Smith, Deborah 312
Laatsch, Linda J. 106
La Croix, Karol A. 95
Laessig, Ronald H. 15, 33
Lairscey, Royce 238
LaVallee, Rebecca B. 577
Leach, Sue R. 599
LeCrone, Carol N. 389, 720, 743
Lee, Chul 528
Lehmann, Craig A. 174
Levy, Rebecca A. 496
Lewis, Dorothy 202
Lewis, Olive 259
Lloyd, Betty Jane 318
Love, Betholene F. 537
Luebbert, Peggy Prinz 316
Maciejewski, Jane A. 313
Macpherson, Colin R. 74
Maehara, Kenneth T. 414
Mahon, Consuelo R. 570
Malchiodi, Lynne 174
Manuselis, George 325, 532, 787
Martinek, Robert G. 414
Marx, Jr., James J. 55
Mass, Diana 2, 315
Matsen, John M. 766
McConnell, Joanne 259
McCutchen, Gaye 772
McDaniel, Glen 143
McKenzie, Shirlyn B. 570
McNeely, Michael D.D. 655
Michael, Barbara Smith 213, 217

Yamada, Natalie A. 75
Young, Ernest 316
Young, Lowell S. 167

SUBJECT INDEX

Aging
Immune response alterations during human aging, 685
AIDS
Clinical microbiology of AIDS, 167
Allergic purpura
Case Studies, 617
Aminotransferases
Clinical utility of routine enzyme measurements, 427
AMT/ASMT 2nd Joint Meeting
Abstracts of papers, 311
Exhibitors' product list, 343
Preliminary program, 177
Antibodies
See: Immunology
See: Immunohematology
Anticoagulant therapy
Laboratory monitoring of anticoagulant therapy, 81
Antimicrobial removal device
Removal of antimicrobial activity from serum, urine, and cerebrospinal fluid by an antimicrobial removal device, 521
Antithrombin III
Hereditary antithrombin III deficiency: A case history, 101
Automation
Automation in microbiology, 238
Automation in clinical chemistry, 221
Automation in hematology, 227
Automation in the blood bank, 234
Automation in immunology, 213
Automation in urinalysis, 217
Clinical laboratory automation: An introduction, 210
Bacteriuria
Automated rapid detection of urinary tract infections, 766
Diagnosis of urinary tract infections, 754
Immunologic diagnosis of infectious disease by antigen detection in urine, 762
Nonautomated rapid methods for bacteriuria detection, 759
Blood bank
See: Immunohematology
Blood gases
A comprehensive statistical quality control program for blood gas analyzers, 27
Blood gas standards: NCCLS, ASMT, AMT, 15
Clinical applications of arterial blood gases, 19
Inaccuracy in blood gas/pH measurements caused by the blood sample, 23
Measurement of the precision of pH and blood gas analyses by interlaboratory testing, 33
Blood smear
Effects of push-slide angles on leukocyte differential, 669
B lymphocytes
Enumeration of immunocytes, 691
Immune response alterations during human aging, 685
The interleukins, 709
Nonimmune and immune defenses, 701
Books Reviewed
Autologous transfusion, 798
Basic quality assurance and quality control in the laboratory, 416
Clinical chemistry: Interpretation and techniques, 414
Clinical chemistry: Theory, analysis, and correlation, 798
Fundamentals of clinical hematology, 797
Handbook of phlebotomy, 797
Modern immunology, 414
Caffeine
Effect of caffeine intake on cholesterol levels in healthy adults, 525
Carnitine
The clinical significance of dietary carnitine, 528
Case Studies 9,141, 259, 478, 603, 617, 748
Cellular immunity
See: Immunology
Chemistry
Effect of caffeine intake on cholesterol levels in healthy adults, 525
Instrument systems for the physician's office laboratory, 566
Mass spectrometry in clinical chemistry, 245
Pharmacokinetic principles in therapeutic drug monitoring, 583
Serum iron determination with Ferene-S: Application to the RA-1000 analyzer, 469
Simplified screening procedure for hyperlipoproteinemias, 174
Chlamydia trachomatis
The laboratory diagnosis of *Chlamydia trachomatis* and genital mycoplasmas, 507
Cholesterol
Effect of caffeine intake on cholesterol levels in healthy adults, 525
Clinical chemistry
Automation in clinical chemistry, 221
Coagulation
See: Hemostasis
Competence
A study of the relationships among demographic factors, continuing education and continued competence, 779
Complement
Nonimmune and immune defenses, 701
Computer-assisted instruction
See: Education
Computers
Choosing a personal computer, 643
Computer-assisted instruction: Is it appropriate? 663
A computer-controlled video disc system for teaching, 655
Microcomputers in the clinical laboratory, 638
Putting microbiology on line, 155
Quality assurance programs and quality control data management, 621
Statistical methods in quality assurance software, 629
Continuing education
See: Education
Controls
See: Quality assurance/Quality control
C-reactive protein
Nonimmune and immune defenses, 701
Creatine Kinase
Clinical utility of routine enzyme measurements, 427
Diabetes Mellitus
The clinical significance of dietary carnitine, 528
Editorial
Clinical microbiology in the 1980's, 134
Continued learning, 2
The future of health care policy: The administration's view, 68
Quality testing in physician office laboratories, 544
Year of decision, 202
Education
Computer-assisted instruction: Is it appropriate? 663
A computer-controlled video disc system for teaching, 655
Continuing education needs of noncertified laboratory personnel in small hospitals, 723
Education, training, and experience of supervisory personnel in interstate laboratories, 114
Education, training, and experience of technical personnel in interstate laboratories, 48
Imperatives for educational research in the clinical laboratory sciences, 787
Marketability of technologists with a graduate degree in administration, 453
Medical technologist thinking styles, 517
A model for educating urine technologists, 251
Physician office laboratorians, 570
Preparation of specimens for immunohematology training, 595
"Satisfactory/unsatisfactory" vs. traditional letter grades, 659
A study of the relationships among demographic factors, continuing education and continued competence, 779
Training and educational needs in small office laboratories, 577
Two methods for storing fungal stock cultures, 111

Electrolytes
Electrolyte technology: Current and future, 40
Enzymes
Applications of enzymes: Tumor markers, new enzymes, and atypical isoenzymes, 438
Clinical utility of routine enzyme measurements, 427
Enzymes as clinical laboratory tools, 445
Erythroid colony assays
Clinical application of erythroid colony assays, 397
Features
Continuing education needs of noncertified laboratory personnel in small hospitals, 723
Education, training, and experience of supervisory personnel in interstate laboratories, 114
Education, training, and experience of technical personnel in interstate laboratories, 48
The establishment of a walking blood bank in the kingdom on Tonga, 666
Laboratory practice in the Soviet Union, 465
Medical technologists' attitudes toward professional and work roles, 537
Venturing into African clinical laboratories, 119
Ferene-S
Serum iron determination with Ferene-S: Application to the RA-1000 analyzer, 469
Fibrin degradation products
Monitoring thrombolytic therapy: The new laboratory challenge, 89
Fibrinopeptide A
Fibrinopeptide A: Evaluation of a commercial RIA kit and values for a normal population, 588
Flame photometers
Electrolyte technology: Current and future, 40
Flow cytometry
Enumeration of immunocytes, 691
Fungal stock cultures
Two methods for storing fungal stock cultures, 111
Fungemia
Case Studies, 259
Gene probes
Molecular biology techniques in the clinical microbiology laboratory, 161
Gerontology
See: Aging
Government
Government regulation of in-office laboratories, 559
Gram-negative
Clinical evaluation of the AutoMicrobic system gram-negative susceptibility urinary card, 473
Health care policy
Editorial, 68
Hematology
An adult with Hb H disease of the Hb constant spring type and Hb E trait, 720
Automation in hematology, 227
Clinical application of erythroid colony assays, 397
A computer-controlled video disc system for teaching, 655
Effects of push-slide angles on leukocyte differential, 669
Fibrinopeptide A: Evaluation of a commercial RIA kit and values for a normal population, 588
Instrument systems for the physician's office laboratory, 566
Screening for hemoglobinopathies and thalassemia, 389
Use of instruments to obtain red blood cell profiles, 379
Hemoglobinopathies
An adult with Hb H disease of the Hb constant spring type and Hb E trait, 720
Screening for hemoglobinopathies and thalassemia, 389
Hemoglobinopathy screening
Hemoglobinopathy screening (letter), 743
Hemostasis
Case Studies, 617
Fibrinopeptide A: Evaluation of a commercial RIA kit and values for a normal population, 588
Hereditary antithrombin III deficiency: A case history, 101
Laboratory monitoring of anticoagulant therapy, 81
Monitoring thrombolytic therapy: The new laboratory challenge, 89
A review of protein C and its role in hemostasis, 95
Heparin
Laboratory monitoring of anticoagulant therapy, 81
***Herpes simplex* virus**
Rapid laboratory diagnosis of *Herpes simplex* virus, 496
Humoral immunity
See: Immunology
Hyperlipoproteinemias
Simplified screening procedure for hyperlipoproteinemias, 174
Immune complexes
Raji cell assay for immune complexes by immunofluorescence, 55
Immunohematology
Automation in the blood bank, 234
Case Studies 478
The establishment of a walking blood bank in the kingdom of Tonga, 666
Preparation of specimens for immunohematology training, 595
Immunology
Automation in immunology, 213
Enumeration of immunocytes, 691
Immune response alterations during human aging, 685
Immunology: A growing emphasis, 680
Nonimmune and immune defenses, 701
Raji cell assay for immune complexes by immunofluorescence, 55
Immunotherapeutics
Radioimmunoscintigraphy using ^{111}In-labeled monoclonal antibodies and the case for immunotherapeutics, 301
Inflammation
Nonimmune and immune defenses, 701
^{111}In-labeled antibodies
Radioimmunoscintigraphy using ^{111}In-labeled monoclonal antibodies and the case for immunotherapeutics, 301
Interferon
The interleukins, 709
Interleukins
The interleukins, 709
Ion selective electrodes
Electrolyte technology: Current and future, 40
Iron
Serum iron determination with Ferene-S: Application to the RA-1000 analyzer, 469
Isoenzymes
Applications of enzymes: Tumor markers, new enzymes, and atypical isoenzymes, 438
Job enrichment
A study of job enrichment preferences among medical technologists, 127
Job satisfaction
Impact of selected variables on job satisfaction of medical technologists, 404
Laboratory design
Space allocation guidelines for the clinical laboratory, 772
Letters to the editor
Hemoglobinopathy screening, 743
Physician's office laboratory, 610
Registered medical assistants, 743
Leukocyte differential
Effects of push-slide angles on leukocyte differential, 669
Leukocyte esterase
Leukocyte esterase/nitrite urine screen: Use with the AutoMicrobic System, 599
Lysine
The clinical significance of dietary carnitine, 528
Management
Education, training, and experience of supervisory personnel in interstate laboratories, 114
Education, training, and experience of technical personnel in interstate laboratories, 48
Factors affecting participative management in the clinical laboratory setting, 532
Impact of selected variables on job satisfaction of medical technologists, 404
A laboratory quality control program that boosts technologist morale, 650
Marketability of technologists with a graduate degree in administration, 453
Medical technologists' attitudes toward professional and work roles, 537
Prediction of work volume and staffing needs in a hospital laboratory for use in productivity monitoring, 459
Space allocation guidelines for the clinical laboratory, 772
A study of job enrichment preferences among medical technologists, 127
Survey of senior medical technologist salaries in the Rocky Mountain region, 123
Maple syrup urine disease
Case Studies, 9
Mass spectrometry
Mass spectrometry in clinical chemistry, 245
Medical technologist salaries
Survey of senior medical technologist salaries in the Rocky Mountain region, 123
Megakaryoblastic leukemia
Case Studies, 603
Methionine
The clinical significance of dietary carnitine, 528
Microbiology
Automated rapid detection of urinary tract infections, 766
Automation in microbiology, 238
Clinical evaluation of the AutoMicrobic system gram-negative susceptibility urinary card, 473
Clinical microbiology of AIDS, 167
Diagnosis of urinary tract infections, 754
Immunologic diagnosis of infectious disease by antigen detection in urine, 762
Leukocyte esterase/nitrite urine screen: Use with the AutoMicrobic System, 599
Molecular biology techniques in the clinical microbiology laboratory, 161
Nonautomated rapid methods for bacteriuria detection, 759
Pharyngeal carriage of beta-hemolytic streptococci and the effect of laboratory exposure, 106
Putting microbiology on line, 155
Rapid detection of oxacillin-resistant staphylococci using an automated system, 60
Relevance of rapid methods and urine evaluation, 753
Removal of antimicrobial activity from serum, urine, and cerebrospinal fluid by an antimicrobial removal device, 521
Two methods for storing fungal stock cultures, 111
Microcomputers
See: Computers
Minute Mystery 76
Monoclonal antibodies
Application of monoclonal antibodies to diagnostic assays, 279
Diagnostic applications for unique tumor-associated antigens defined by monoclonal antibodies, 295
Enumeration of immunocytes, 691
Monoclonal antibodies in diagnostic assay systems, 287

Radioimmunoscintigraphy using ^{111}In-labeled monoclonal antibodies and the case for immunotherapeutics, 301
Multi-rules
Statistical methods in quality assurance software, 629
Mycoplasmas
The laboratory diagnosis of *Chlamydia trachomatis* and genital mycoplasmas, 507
NCCLS
Blood gas standards: NCCLS, ASMT, AMT, 15
Nitrite urine screen
Leukocyte esterase/nitrite urine screen: Use with the AutoMicrobic System, 599
Opportunistic infections
Clinical microbiology of AIDS, 167
Oxacillin-resistant staphylococci
Rapid detection of oxacillin-resistant staphylococci using an automated system, 60
Personal Computers
See: Computers
pH
Clinical applications of arterial blood gases, 19
A comprehensive statistical quality control program for blood gas analyzers, 27
Inaccuracy in blood gas/pH measurements caused by the blood sample, 23
Measurement of the precision of pH and blood gas analyses by interlaboratory proficiency testing, 33
Pharmacokinetics
Pharmacokinetic principles in therapeutic drug monitoring, 583
Phlebotomy
Inaccuracy in blood gas/pH measurements caused by the blood sample, 23
Phosphatases
Clinical utility of routine enzyme measurements, 427
Physician office laboratories
Government regulation of in-office laboratories, 559
Instrument systems for the physician's office laboratory, 566
A medical technologist in a physician's office laboratory, 564
Physician office laboratorians, 570
The physician's office laboratory (letter), 610
Quality testing in physician office laboratories, 544
Training and educational needs in small office laboratories, 577
Plasma inhibitors
A review of protein C and its role in hemostasis, 95
Preview of new products
AMT/ASMT preview of new products, 546
Productivity monitoring
Prediction of work volume and staffing needs in a hospital laboratory for use in productivity monitoring, 459
Professional issues
Motivating personal growth, 75
Motivation, 75
The scope of practice of the clinical laboratory scientist, 142
Technologists at the bedside, 75
3 + 1 vs. 2 + 2, 75
Prolymphocytic transformation
Case Studies, 748
Protein C
A review of protein C and its role in hemostasis, 95
Push-slide angles
Effects of push-slide angles on leukocyte differential, 669
Quality assurance/Quality control
Case Studies, 141
Choice of a control material, 634
A comprehensive statistical quality control program for blood gas analyzers, 27
A laboratory quality control program that boosts technologist morale, 650
Measurement of the precision of pH and blood gas analyses by interlaboratory proficiency testing, 33
Quality assurance programs and quality control data management, 621
Statistical methods in quality assurance software, 629
Raji cell assay
Raji cell assay for immune complexes by immunofluorescence, 55
Red blood cell profiles
Use of instruments to obtain red blood cell profiles, 379
Registered medical assistants
Registered medical assistants (letter), 743
Retrovirus
Clinical microbiology of AIDS, 167
Software
See: Computers
Soviet Union
Laboratory practice in the Soviet Union, 465
Staffing
Prediction of work volume and staffing needs in a hospital laboratory for use in productivity monitoring, 459
Streptococci
Pharyngeal carriage of beta-hemolytic streptococci and the effect of laboratory exposure, 106
Student evaluation
"Satisfactory/unsatisfactory" vs. traditional letter grades, 659
Thalassemia
An adult with Hb H disease of the Hb constant spring type and HB E trait, 720
Screening for hemoglobinopathies and thalassemia, 389
Thinking styles
Medical technologist thinking styles, 517
Thrombolytic therapy
Monitoring thrombolytic therapy: The new laboratory challenge, 89
Thrombomodulin
A review of protein C and its role in hemostasis, 95
T lymphocytes
Enumeration of immunocytes, 691
Immune response alterations during human aging, 685
The interleukins, 709
Nonimmune and immune defenses, 701
Tumor markers
Applications of enzymes: Tumor markers, new enzymes, and atypical isoenzymes, 438
Diagnostic applications for unique tumor-associated antigens defined by monoclonal antibodies, 295
Urinalysis
Automated rapid detection of urinary tract infections, 766
Automation in urinalysis, 217
Diagnosis of urinary tract infections, 754
Immunologic diagnosis of infectious disease by antigen detection in urine, 762
Leukocyte esterase/nitrite urine screen: Use with the AutoMicrobic System, 599
A model for educating urine technologists, 251
Urinalysis, 256
Nonautomated rapid methods for bacteriuria detection, 759
Relevance of rapid methods and urine evaluation, 753
Valproic acid
The clinical significance of dietary carnitine, 528
Virology
Diagnostic virology and related services, 495
Practical aspects of viral laboratory diagnosis, 500
Rapid laboratory diagnosis of *Herpes simplex* virus, 496
Workload
Prediction of work volume and staffing needs in a hospital laboratory for use in productivity monitoring, 459
